

RIGHT PLACE, WRITE RHYMES!

OK, young genius, it's time to rhyme! First, think of 4 words. They can be anything at all...Like...What do you like to do? How would you describe yourself? What's your favorite color? Animal? Food? Or just a word that you like how it sounds.

NOW WRITE THEM HERE!

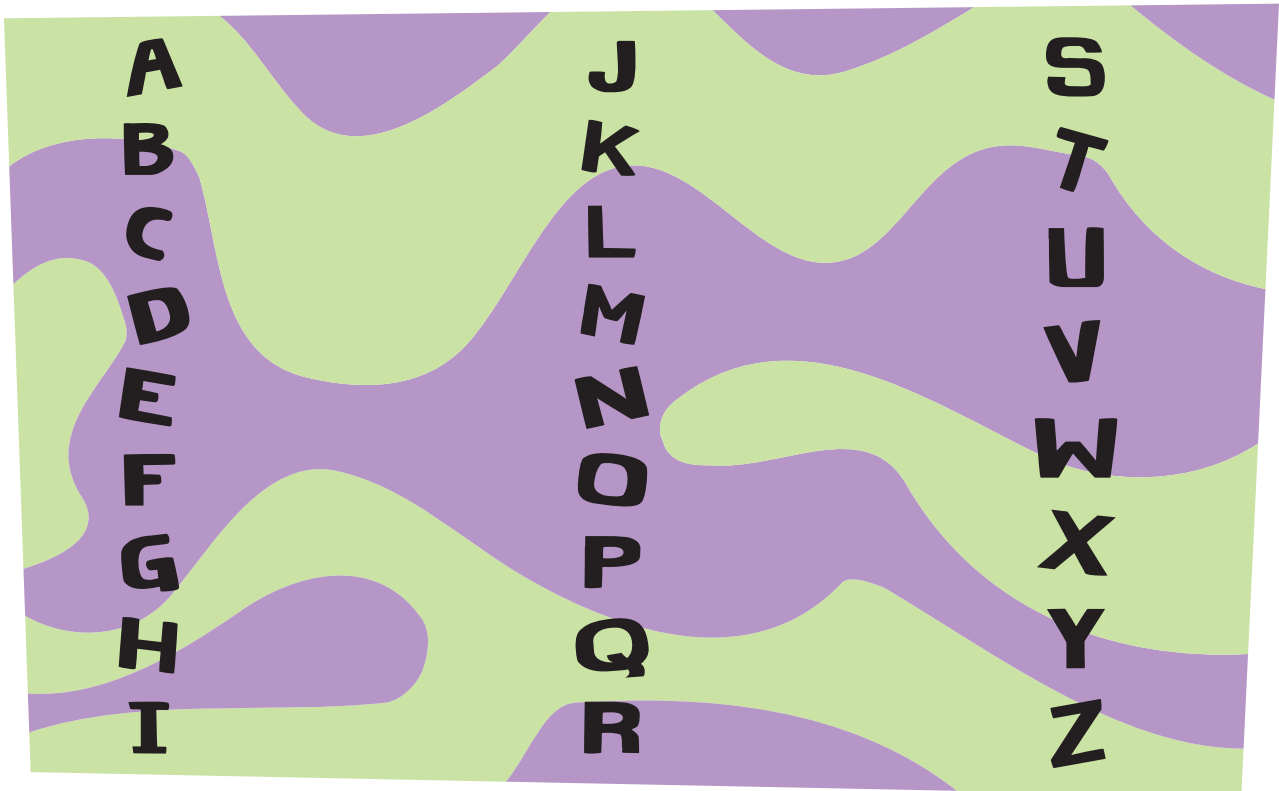

1. _____

2. _____

3. _____

4. _____

SO FAR, SO GOOD! Now use the **ALPHABETIC METHOD** to find 3 rhymes for each of the 4 words. It's easy! Just say each word like it started with a...

...AND WRITE THE NEW RHYMING WORDS BACK HERE 

OK, YOU'VE ALMOST GOT A FRESH RHYME!!!

WORD 1 _____

Rhyming
Words!

WORD 2 _____

Yep,
Rhyming
Words!

WORD 3 _____

You
Guessed
It!

WORD 4 _____

Right on,
Newbie!

You're
Crushing
It!

LAST STEP - turn all this into a song!

Just write little sentences that are the same length and end with your rhyming words. It could be a story, it could be funny, it could be like poetry, IT'S ALL UP TO YOU!

Count along to the beat...1, 2, 3, 4...1, 2, 3, 4...and put your rhyming words on the 4! Then fill in the rest to make it all make sense. It's kinda like putting a puzzle together, and the rhyming words are the edges of the puzzle, so you know where they go. The rest can be anything you want.

And remember, while you write it, say it out loud. Clap your hands, and say it to the beat. Rhymes are meant to be rapped, not read! Make it loud and proud, make it fun till you're done. Then do another one!

Keep on writing and you'll keep getting better, I promise. It'll get easier, more fun, and more awesome!

If you write one you really like, send it to: undergroundplayground@gmail.com because I wanna hear it!

ENJOY YOUR NEW SKILLS, LITTLE HOMIE! PEACE!!!
